# **Employment**

Jan 2022 - Present

UI/UX Designer at Travis Leslie

Specializing in B2B Applications, Mobile Apps, and Websites

#### **Concept to Final Design:**

- Guided clients from initial concept through research, low-fidelity wireframes, high-fidelity mockups, and final vetted designs.
- Conducted market research and competitive analysis to inform design strategies.
- Created detailed personas, user journeys, and scenarios to ensure user-centered design.

#### **Prototyping and User Testing:**

- Built interactive prototypes using Figma to simulate real-world interactions.
- Led user testing sessions and iterated designs based on feedback.
- Delivered developer-ready design assets and specifications.

#### **Client Collaboration:**

- Maintained clear communication and provided regular updates throughout the project lifecycle.
- Managed client expectations and ensured timely project delivery.
